price reasonably reflects the cost of performing the part of the work to which that price applies;

- Tenderer's ability to provide the necessary management structure, skilled personnel, experience and equipment needed to perform competently the work under the Contract;
- Tenderer's performance under other contracts both for the Owner and others.

4.4 Without limiting the generality of paragraph 4.1 or 4.2, the Owner, at its discretion, may reject a tender in any of the following cases:

- The Tenderer is bankrupt or, for whatever reason, its activities are rendered inoperable for an extended period;
- Evidence, satisfactory to the Owner, of fraud, bribery, fraudulent misrepresentation or failure to comply with any law protecting individuals against any manner of discrimination has been received with respect to the Tenderer, any of its employees or any subcontractor included as part of its tender; or
- Evidence satisfactory to the Owner that, based on past conduct or behavior, the Tenderer, a subcontractor or a person designated to perform the work is not suitable or has conducted itself improperly;
- The Owner determines that the Tenderer's performance under other contracts, including the efficiency and quality of the work performed, and the extent to which the Tenderer complies or has complied with contractual clauses and conditions in performing the work, is or was unsatisfactory.

4.5 The Tenderer acknowledges that it shall have no claim against, or entitlement to damages from, the Owner by reason of the owner's rejection of its tender based upon the above criteria, or a rejection of all tenders.

5.0 Bid Protest Procedure

5.1 Pre-award bid disputes.

Bidders should seek a resolution of any pre-award dispute by communicating directly with the City Contact as soon as possible from the time when the basis for the dispute became known to them.
